Company Description

We create world-class content, which we distribute across our portfolio of film, television, and streaming, and bring to life through our theme parks and consumer experiences. We own and operate leading entertainment and news brands, including NBC, NBC News, MSNBC, CNBC, NBC Sports, Telemundo, NBC Local Stations, Bravo, USA Network, and Peacock, our premium ad-supported streaming service. We produce and distribute premier filmed entertainment and programming through Universal Filmed Entertainment Group and Universal Studio Group, and have world-renowned theme parks and attractions through Universal Destinations & Experiences. NBCUniversal is a subsidiary of Comcast Corporation.

Here you can be your authentic self. As a company uniquely positioned to educate, entertain and empower through our platforms, Comcast NBCUniversal stands for including everyone. Our Diversity, Equity and Inclusion initiatives, coupled with our Corporate Social Responsibility work, is informed by our employees, audiences, park guests and the communities in which we live. We strive to foster a diverse, equitable and inclusive culture where our employees feel supported, embraced and heard. Together, we'll continue to create and deliver content that reflects the current and ever-changing face of the world.

Job Description

NBCUniversal's Enterprise Product Team builds products providing essential capabilities to organizations throughout NBCUniversal, including the Universal Filmed Entertainment Group, Universal Studios Group, Broadcast Operations, NBC & Telemundo Networks, Cable Entertainment brands, local TV stations and more.

We're looking for a highly motivated Product Owner to drive digital transformation initiatives across the Studios, Film, TV, & Streaming businesses. This is a high visibility role that impacts cross functional workflows across the entire enterprise content supply chain.

Reporting to the Director of Product for Titles & Metadata you'll utilize your balanced skillset of business acumen along with your passion for technical innovation to deliver impactful content and title metadata management solutions and workflows.

This is an exciting opportunity to be part of a team that is on the forefront of innovation and the Product Owner will take over day to day management of the product development for a product that touches almost every part of the company – from the Studios, to Finance, Fulfillment, Peacock and beyond.

To succeed in this role you'll need a love for the TV & Film business and appreciate the creative work that goes into creating our content.

Requirements

- Craft a compelling vision and gain support and alignment from cross functional partners.
- Lead product demos to business stakeholders and communicate product status across the teams.
- Collaborate with Engineering, Design, Operations and Business Engagement to deliver features in support of an agile environment, while aligning with internal Program Management.
- Dive into complex technical architectures and collaborate with the engineering team to deliver clear product requirements to develop the best Content Management solutions.
- Create all product documentation, stories, road-map prioritization, product keynotes and business requirement documents that help chart the course.
- Provide mentorship to product specialists across the team.

Qualifications

- 4+ years of product management experience
- Be innately curious.
- Possess the ability to adapt to a fast-moving environment with shifting priorities.
- Bring excellent organizational skills, including listening and critical thinking, in addition to an impeccable attention to detail.
- Have excellent communication skills, with the ability to drive clarity across the organization and to multiple and varied audiences.
- Be adept at working within a lean environment, with the capability to scale as necessary.
- Experience with complex eco-systems of metadata.
- Has worked as a product manager or technical product manager.
- Has worked on B2B, platform solutions, API contracts and or internal large-scale systems.
- Experience with Agile methodology.

Remote Workers: This position has been designated as fully remote, meaning that the position is expected to contribute from a non-NBCUniversal worksite, most commonly an employee's residence.

This position is eligible for company sponsored benefits, including medical, dental and vision insurance, 401(k), paid leave, tuition reimbursement, and a variety of other discounts and perks. Learn more about the benefits offered by NBCUniversal by visiting the Benefits page of the Careers website.

Salary range: \$100,000 - \$130,000 (bonus eligible)
